# Ayyash Mumtaz Hafidz

Web Developer | Tech Enthusiast  
Bogor, West Java, Indonesia

## Summary

I am a web developer with over 2 years of experience in creating engaging and responsive web applications. I specialize in front-end development using HTML, CSS, and JavaScript, collaborating with cross-functional teams to translate designs into exceptional user experiences.

Throughout my career, I have successfully designed and launched various web projects that have been well-received by users and stakeholders. I have a deep understanding of best practices in web development, including responsive design, performance optimization, and accessibility.

Additionally, I am always staying updated with the latest technology advancements in the industry and thrive on taking up new challenges. I possess strong analytical skills and can effectively troubleshoot and solve problems. I also have good communication and collaboration abilities, enabling me to work efficiently within teams.

I am passionate about continuous learning and growth in the field of web development, as well as contributing to the creation of creative and innovative solutions. If you are seeking a dedicated and experienced web developer, I am ready to collaborate on exciting and impactful projects."

## Experience

lightdev.id  
Founder  
February 2022 - Present (1 year 11 months)  
Bogor, West Java, Indonesia

PT Digimax Daksa Nirankara

1 year 7 months

### Research And Development Engineer

October 2022 - July 2023 (10 months)

Cimanggis, West Java, Indonesia

- Conducting comprehensive research to identify potential suppliers and gather market intelligence for the successful tender procurement of BKB Kit Stunting in 2023.
- Collaborating closely with cross-functional teams to develop tender documentation, including scope of work, technical specifications, and evaluation criteria.
- Preparing and submitting tender proposals, adhering to the required documentation and timeline.
- Evaluating bids and proposals, analyzing supplier capabilities, track records, and pricing to make informed decisions during the tender evaluation process.
- Managing supplier relationships and negotiating contracts to ensure the successful acquisition and delivery of high-quality BKB Kit Stunting.
- Ensuring compliance with tender regulations and addressing any contractual issues or disputes that may arise during the procurement process.

### Web Developer

January 2022 - September 2022 (9 months)

Bandung, West Java, Indonesia

- Spearheaded the development of modern and responsive websites, collaborating closely with UI/UX designers and back-end developers to deliver visually stunning and user-friendly interfaces.
- Implemented front-end solutions using HTML, CSS, and JavaScript frameworks like React, ensuring seamless navigation and optimal performance across various devices and browsers.
- Leveraged back-end technologies such as Node.js to develop robust and scalable server-side functionalities, handling database management and user authentication.
- Contributed to the optimization of website performance, reducing load times and improving overall user experience, resulting in a significant increase in site traffic and engagement.
- Actively participated in Agile development methodologies, attending daily stand-ups, and conducting sprint reviews to maintain project transparency and meet tight deadlines.
- Utilized version control systems like Git to manage codebase efficiently, facilitating seamless collaboration with team members and version tracking for code changes.

## SIT Al Kautsar Klapanunggal

IT Specialist

July 2020 - November 2021 (1 year 5 months)

Klapanunggal, Bogor

## PT Kaila Indonesia Berdaya

Web Application Developer

November 2019 - September 2020 (11 months)

Jakarta, Indonesia

As a web developer at PT. Kaila Indonesia Berdaya, I am responsible for designing, developing, and maintaining responsive and user-friendly web applications. My primary focus is on front-end development using modern web technologies such as HTML5, CSS3, and JavaScript.

### Key Responsibility :

- Collaborate with cross-functional teams to gather and analyze project requirements, ensuring a thorough understanding of the objectives and desired outcomes.
- Translate design mock-ups and wireframes into interactive and pixel-perfect web pages, ensuring the highest level of visual appeal and usability.
- Develop reusable components and libraries to streamline development processes and promote code reusability.
- Implement responsive designs to ensure optimal performance across various devices and screen sizes.
- Optimize web applications for maximum speed and scalability, leveraging techniques such as code minification and image optimization.
- Stay up to date with the latest web development trends, best practices, and emerging technologies to continuously improve the development process and deliver high-quality solutions.

## Yayasan Al Kautsar Klapanunggal

Instructor

March 2019 - June 2019 (4 months)

Bogor, West Java, Indonesia

Digital World Trainer

- Media Social Fundamental
- Digital Marketing Trainer
